### Property Information

This pastureland offering consists of 479 title acres (3 parcels) located northwest of Asquith, Saskatchewan. The land is currently utilized as pasture, as approximately 300 acres could be cultivated, providing future cropping potential.

The property has two sets of steel corrals, making it well-suited for livestock operations. In addition, there is a bored well located on NW 18-38-9 W3, drilled in August 2021. The well is 72 feet deep with a 30-inch casing, rated at approximately 10 GPM, and is equipped with a solar pump, tire bowl, panels, and gate.

The land is currently not rented for the 2026 crop year.

### Farmland & Price Summary

3 parcels  
479 title acres (ISC)

#### SAMA Information

480 total acres  
415 arable hay/grass acres  
65 wetland/bush acres  
\$544,900 total 2025 assessed value (AV)  
\$181,633 average assessment per 160 acres  
34.9 soil final rating (weighted average)

\$950,000 Farmland Price  
\$1,985 per title acre (ISC)  
1.74 times the 2025 assessed value (P/AV multiple)

## SAMA Information

This information is collected from Saskatchewan Assessment Management Agency via field sheets on each individual parcel. It includes specific information such as: assessed value, uses of soil (cultivated, arable, pasture, wetlands, etc), number of acres for each use, soil profile information including association & texture, topography, stones, salinity and soil final rating.

## Soil Final Rating

The final rating (FR) is the productivity rating for the acres adjusted for economic factors that affect the average cost of production for specified features. The economic factors include stones, topography, natural hazards, man-made hazards, tree cover and miles to market. The final rating units are index points per acre. Soils are given a rating from 100 (best) to 0 (worst). Soils with a final rating under 30 are marginal and rarely cropped.

## Saskatchewan Crop Insurance Corporation (SCIC)

SCIC gives a class rating to every quarter section in Saskatchewan to reflect its productivity. Ratings range from Class A (best) to Class P (worst). There are 23 different risk zones in Saskatchewan. Please note a class B rating in risk zone 3 does not necessarily have the same productive capacity as a class B rating in risk zone 16.
